Wednesday March 3. 1830
 Finished this Township

Pigeon River is generally about 1.25 links wide. &
 of very unequal depth. from 15 inches to 5 feet. —
 Tann River is a very rapid stream well —
 and generally not more than 55 links wide
 with low banks. It is more crooked than any
 other stream I have ever seen. 30 miles of Meanders
 would when reduced to a straight line. be about
 5 or 6

Surveyed by
 Thomas J. Todd. C. S.
